## Finally! Scientifically tested Fast Weight Loss!

TopSlim is based on the research of some of the most eminent and respected scientist in the world!. See below.

TopSlim contains Garcinia Cambogia, which is the only weight loss ingredient that has **EVER** been fully tested in multiple double blind clinical studies over many years. See here.

Garcinia Cambogia is derived from the Gambooge fruit that is native to Indonesia. The fruit has been used in Indian traditional medicine for thousands of years. The fruit has been used to treat a host of maladies and well researched evidence has shown the extract to have enormous **Appetite Suppressing, Fat Burning and Energy Boosting** properties.

Garcinia Cambogia also does something completely unique! It inhibits fat synthesis. In other words it **Stops the Creation of Fat** - the transformation of the carbs you eat into fat! This is totally new and unique to Garcinia Cambogia and this on it's own, makes TopSlim such a sought after weight loss miracle.

The reason why Garcinia Cambogia has been ignored for so long is simply a matter of cost. To create the extract was hideously complicated and expensive.

Now - finally! New simplified extraction techniques made Garcinia Cambogia available to the average man and woman and TopSlim immediately decided to put huge quantities of Garcinia Cambogia (**500mg!**) in each capsule! All you have to do is to take 1 capsule per day an hour before your main meal and use our **FREE** Healthy Eating Program. The results have been incredible - every day there is more and more e-mails streaming in with more and more **fabulous results:**
